E.B.(I). P.W.D.

The S.E., K.I.C. has submitted a proposal for the creation of the following posts for his circle:-

Posts.	Scale of pay. Rs.
(i) One Mechanical and Electrical Ex. Engr.	500-30-650-EB-45-1,100.
(ii) One Asstt. Mechanical and Electrical Engr.	220-15-400-EB-20-500-EB-25-650.
(iii) Four Mechanical and Electrical Overseers.	80-5-100-8-140-EB-10-220-EB-10-270.
(iv) One Mechanical D'man.	110-10-180.
(v) Two Tracers and Computors.	46-3-85-EB-4-105.
(vi) One Head clerk.	140-10-190.
(vii) One Senior Clerk.	100-8-140-10-150.
(viii) One Junior Clerk.	55-3-85-4-105.
(ix) One Typist.	92-8-140.
(x) Five Inferior servants.	30-1/2-35.

The S.E. has explained in details the necessity of this estabt. He says that the work of the Ghataprabha Left Bank Canal will have to be done mostly by mechanisation and that it is essential to have a spl. Mechanical and Electrical Ex. Engr. for this purpose. The duties of the Mechl. and El. Ex. Engr. will be as under:-

(1) Scrutinising offers from the various firms for different machines and choosing the final type.

(2) Placing orders for the same, including preliminary correspondence and visiting the places where similar machines are working.

(3) Looking to regular serving of machines and their maintainance and repairs.

(4) Runing of work shops, castings and moulding in foundaries, etc.

(5) Ordering parts for replacements.

(6) Keeping log forms and data for different machines.

In short the duties of the Mechl. & El. Ex. Engr. will be selection, inspection, maintenance and repairs of the machinery required for the work of the Ghataprabha Left. Bank Canal. The S.E. says

that...

that the Ex. Engr., Ghataprabha Left Bank Canal Dn., cannot find time to do all these duties if he is to attend efficiently to normal management of works. The S.E. further adds that the proposed Mechl. and El. Ex. Engr. will be able to see to the machinery needs of the projects which will be taken up in future.

2. It may be stated that a Mechanical Sub-Dn. has been sanctioned for the Gangapur Storage Dn. in the D.I.C. ~~In addition to this~~ A post of plant officer in the scale of Rs.350-30-650 has been created for selecting the right type of machinery and for looking after its erection maintenance and up keep. The plant Officer is meant for all the circles but for the present he has been attached to the Gangapur Storage Dn. - vide G.R. No.9356/36, dated the 17-7-48, and the notes underlying it. The S.E., N.G.C. has also submitted a proposal for the creation of a 'Plant and Machinary Sub Dn.' or 'Mechanical Sub Dn.' for selection of machinary for major irrn. projects in the Irrn. Projects Dn. (North) - vide para.5 of the Ex. Engr. Irrn. Projects Dn. (North) letter No.2986, dated the 19-10-48 and para.7(iii) of the S.E., N.G.C's letter No.151, dated the 26-11-48. It will thus be observed that the necessity of an officer for selection of machinery and looking after its ~~exction~~ erection, maintenance and up keep is felt by all the officers who have major irrn. schemes.

3. The S.E., K.I.C. is of the opinion that a Sub-Dn. with a Dy. Engr. in charge would not be sufficient for the purpose as a ~~more~~ man with the experience necy. in running, repairing and general supervision of mechanical equipment of the type which is required for the Gataprabha Left Bank Canal cannot be available, in these days, on the pay offerred to a Dy. Engr. He has, however, no objection to the creation of a post of Dy. Engr. instead of an Ex. Engr. if the Dy. Engr. is given a higher starting pay of Rs.500 to 600 p.m.

4.....

4. As stated above [p.2] the Plant Officer has recently been appointed by Govt. and he is meant for all the circles although for the present he is attached to the Gangapur Storage Dn. It is, therefore, for consideration whether there should be a common mechanical organisation, say a Dn. with Sub-Dns., for all the circles or whether separate mechanical estabt. may be sanctioned for each circle. In the later case the S.E., K.I.C.'s proposal in [p.1] para. 1 above, with such modifications as may be considered necy., may be approved in U.O., consultation with the F.D.

x With refce to combd estabt.

Thro. E.B.(II), A.B.(III)., I.B.(II), & Conlt. Br.

5. The scales of pay for estbt. estbt. as also the number proposed do not call for any remarks.

6. As the annual average cost of the establishment proposed by the S.E., K.I.C is Rs. 45,000 per annum (recurring), if it is decided to sanction the estabt during the current year, the approval of the Legislature will have to be anticipated. It can be obtained by means of a supplementary grant, if the F.D. agrees.

Secy. (I) Secy. (R&S) Leo to (F.D.)

7. The cost of the estabt. is debitable to "50 - C.W. Irrg."

8) Each big Project should have a Separate machine Division & Sub. Dn. & one Plant Officer for the whole Presidency - Vice or part of ~~which~~. In the case of the G.L.B. canal a Sub Dn would probably be adequate for the present - A Divn may be necessary when the Dam & other works are started.

P.T.O

I agree with the D.E's note para 8.

KJ 12/2/49

To begin with a mechanical Sub-Station should be opened up. As & when more machinery starts working, it may be possible to consider the creation of an Executive Charge, which would be necessary at a later stage. For a suitable name higher pay may be given: - Secy (C)

6. S. No. 1. above (Overseers) - five posts of Overseers — 4 Mechanical + 1 Civil - are asked for for the proposed Mechanical Sub-Dns. It is for consideration whether any reduction in this number may be made, and if so, three posts of Overseers may be sanctioned in the first instance.

p 10 of C.S.

I agree; Three posts of overseers (2 mechanical + 1 civil) may be sanctioned for the present.

Kj 17/4.

7. S. Nos. 6 (i) + (ii), 10 + 11 (Clerks, Tracers and Computors) the proposals in respect of these posts may be agreed to, if approved.

Yes
Kj 17/4/49

8. S. No. 7 (Store-keeper). It seems that this post is required for the new Sub-Dns. in order to deal with the accounting of machinery intended for the Dns. as a whole. A store-keeper has already been sanctioned for keeping the Divisional Stores accounts, etc. It is, therefore, for consideration whether an additional Store-keeper's post shd. be sanctioned for the new Sub-Divl. Office. The H.Q. of the new Sub-Divl. Office are at Dhupdal + the head-qrs. of the new Sub-Divl. Office are also to be at Dhupdal. The S.E. may, if approved, be requested to utilise the services of the Store-keeper sanctioned for the Divl. Office for the work in con. with the stores to be dealt- ~~of the new Sub-~~ with

As the new Subdn will have to deal with machinery, spare parts & accessories and repairs to the machinery, it appears desirable to have an independent Store-keeper for the Mechanical Subdn.

Kj 17/4/49

with by the new Sub-Dn. as well.
In case it is found by experience
say of about one year that ~~the~~ one
Store-keeper is not able to cope with
the work, the S.E. may approach Govt.
with proposals for giving him (the Store-keeper)
some assistance.

9. S.No.8 (D'man). The remarks made in para 8 above are applicable in this case also. The orders that may be passed on that para may be made applicable to this proposal as well.

Necessity of having a separate D'man in the field is not clear; we may not therefore allow this item
Yj 7/4

10. S.No. 13 (Peons + Chowkidars). The same number of peons & chowkidar (including watchman) as that sanctioned for the other Sub-Dns viz five may be sanctioned, if approved, for the new Sub-Dn.

I agree

18/4/49

FINANCE DEPARTMENT
File No
Date 19/4/49
Serial No

Finance Department (B)

These papers relate to the opening of a new mechanical sub-division under Ghatapra--bha Left Bank Canal Division. It is state that the work of the Ghataprabha Left Bank Canal will have to be done mostly by mechanisation and that it is essential to have a separate sub division for the selecti inspection, maintenance and repairs of the machinery required for the work. It is also stated that the post of Plant Officer create for selecting the right type of machinery though was meant for all the circles, for the present the post has been attached to the Gangapur Storage Division.

While

While it is not possible to say whether there will be sufficient work for a full fledged sub division, from what has been stated by the S.E. S.I.C. and the P.W.D. there appears some justification in making some such arrangement as has been proposed on these papers for the selection maintenance and repairs of the machinery required for the heavy projects. F.D. may accordingly agree to the P.W.D. proposal to create a new mechanical sub division under Ghataprabha Left Bank Canal Division for a period of one year in the first instance.

2. The staff supported by the P.W.D. for the new mechanical sub division is as follows :

Posts.	Pay scales.
1 1 Dy. Engineer.	Class II scale
2 3 Overseers (2 Mechanical and 1 civil).	Rs.80-5-100-8-140--E.B.-10-220-E.B.--10-270.
1 1 Senior clerk.	Rs. 92-8-140
2 Jr. clerks.	Rs. 46-3-85-E.B.-4-105
1 1 Store keeper.	Rs. 60-4-120-E.B.-5-150.
1 1 Tracer.	Rs.46-3-85-4-105
X 1 Computor.	-do-
4 5 Peons and chawkidars.	Rs. 30-1/2-35.

The staff proposed may be agreed to subject to the following modification:

(i) The post of civil Overseer may be cut out. There are already 10 civil overseers sanctioned for the divisional and sub divisional offices and one of these may be utilised for the new sub division.

(ii) One post of Jr. clerk may be cut out as there is no reason to believe that the clerical work in the new sub division will be as heavy as in a normal sub division.

(iii) The need for appointing the Tracer and Computor does not seem clear. These posts may

therefore ..

therefore be omitted and the services of a tracer and a computor may be made available to the new sub division from the sanctioned strength, if it is considered necessary.

(iv) Five posts of inferior servants may be reduced to four.

3. Subject to approval, the staff proposed to be agreed to may be sanctioned for a period of one year in the first instance. If the modifications suggested above are accepted the annual average cost involved in the proposal will be Rs.14,650/- and

requires L. S's prior approval. may therefore be requested to put up the proposal as a new item of expenditure for 1950-51 budget

see margin.

It seems that as the work on the Ghatprabha canals is proceeding and the mechanical sub. dion will have to be sanctioned as early as possible if it is desire any useful purpose in that case, the proposal may be circulated to E.P.C.

E.B.(I). P. W. Deptt.

Submitted with refce. to this Deptt. note dated the 19-4-49.

2. The work of the Ghataprabha Left Bank Canal in the K.I.C. will have to be done mostly by Mechanisation. For the selection, inspection, maintanance and repairs of the machinery required for this work the S.E., K.I.C. had proposed the creation of a Mechanical Dn. To begin with it is, however, proposed in consultation with the S.E. to sanction a Sub-Dn. instead of a Dn. The question of the creation of a divisional charge will be considered of a later stage when more machinery starts working. This Department has proposed the following estabt. for the Sub-Dn. -

Estabt.	Scale of pay Rs.
One Dy. Engr.	B.S.E., Class II, scale.
Three Overseers (two Mechl. and one Civil).	80-5-100-8-140-E.B.-10-220-E.B.-10-270.
One Sr. Clerk.	92-8-140.
Two Junior Clerks.	46-3-85-E.B.-4-105.
One Store-Keeper.	60-4-120-E.B.-5-150.
One Tracer.	46-3-85-E.B.-4-105.
One Computor.	- do -
Five class IV sercants (peons & chowkidars)	30-1/2-35.

It is proposed to sanction the Sub-Dn. and the estabt. for a period coterminus with the period of the Ghatprabha Left Bank Canal Dn. The head-quarters of the Sub-Dn. are proposed to be located at Dhupdal.

The F.D. and the E.P.C. have agreed to the proposals but have reduced the posts of one Overseer (Civil), one Junior clerk, one computor and one peon. They have also reduced the period of one year, in the first instance. The reductions effected by the F.D. and the E.P.C. may perhaps be accepted. If so, the draft put up for approval may issue after submitting

E.B.(I). P.W. Deptt.

Submitted for information.

2. The S.E., K.I.C. has appointed Mr. R.D. Gupte, Offg. Dy.Engr., Daddi Head Works and Ghataprabha L.B. Sub-Dn., to hold charge of the new Mechl. Sub-Dn., in addition to his own duties, pending the apptt. of a new Mechl. Dy.Engr. The question now for consideration is reg, the apptt. of a Mechl.Dy.Engr. for the Mechl. Sub-Dn. in the K.I.C. It appears that no Mechl. Dy.Engr. can be transferred from any other circle to the K.I.C. for the purpose. It is, therefore, necessary to recruit a new candidate through the B.P.S.C.

It may be stated that a proposal for opening a new Dn. with some Sub-Dns. for the purchase of machinary from the disposals and for selecting, purchasing and stocking materials required by this Deptt. is separately under consideration. The papers on the subject have been refd. U.O. to the Ex. Engr.,Gangapur Storage Dn., for his suggestions in the matter. If the proposal materialises then some Dy. Engrs. with mechanical qualifications would be required for that Dn. It, therefore, seems desirable that instead of communicating individual requirements to the B.P.S.C. for recruitment of candidates a consolidated requirement for mechanical Dy. Engrs. may be forwarded to the Commission. This can, however, be done after the proposal refd. to at 'A' above is finally decided. A decision on that case may be awaited.

PKB.

2. The Sec., Karnataka Irrn. circle, may be asked to furnish the information as per form put up below. The draft put up for approval may issue.

21-10-49

PXD
21-10-49

KJ 24/10/49

E.B.(I).

The question under consideration in these papers is reg. the apptt. of a new Mechl. Dy. Engr. for the Mechl. Sub-Dn. in the Karnatak Irrgn. Circle. It is proposed to recruit a suitable candidate through the B.P.S.C. for the purpose-vide notes on pagex 21 , ante. It is, therefore, necy. to furnish the Commn. with the information reg. the post xx to be advertised in the prescribed requisition form. In G.I. No. 201/48-E(I), dated the 26-10-49, the S.E., Karnatak Irrgn. Circle, was asked to furnish the necy. information in the prescribed form. The information furnished by the S.E. is scrutinised in the following paras.

2. Item 1(a) in the requisition form :- The designation of the post may be simply "Dy. Eng.(Mechl)".

Items 1(b) & 2 idem :- Call for no remarks.

Item 3 idem :- The post of Mechl. Dy. Engr. in question is sanctioned for a period of one year in the first instance - vide G.I. No. 201/48-E(I), dated the 16-6-49. The post is, however, likely to be continued further. The entry against this item may, therefore, be modified as under -

"Temporary for a period of one year in the first instance with likelihood of further continuance"

Item 4 idem :- Calls for no remarks.

Item 5 idem :- The S.E. has proposed a probationary period of one year. It may be stated that the apptt. ~~appoint~~ is a temporary one and is termihable with one month's notice on either side. If, therefore, the candidate who would be appointed is found unsuitable his services can be terminated with one months notice. No probationary period was prescribed in the case of temporary Dy. Engrs. recently recruited in this Deptt. In view of this, a

probationary .....

probationary period may not perhaps be prescribed in this case also.

Item 6 idem :- The entry against this item may be modified as under -

" One month's notice on either side"

Item 7(a) idem :- The entry against this item may perhaps be modified as under -

"In general the duties of Sub-Dnl. Officer in the ~~with~~ Public Works Department. In particular the officer will be in charge of the earth moving machinery, rock drilling and blasting equipment, Automobile Section, Workshop, Electrical installations and pumping machinery and other miscellaneous mechanical. equipment including maintenance and operation large-scale construction work".

Item 7(b) idem :- Although the officer is meant for the Mechl. Sub-Dn. at Ghataprabha and will be in charge of that Sub-Dn. for the present, he may perhaps be ~~kept~~ liable to service at other places in the Province of Bombay so that he can be transferred, if necy., any where in the Province. The following may, therefore, be added to the entry made by the S.E. against this item -

"but will be liable to serve at other places in the Province of Bombay if exigencies of service ~~work~~ so warrant."

Items 8, 9(a) & (b) idem :- Entries against these items call for no remarks.

Item 9(c) idem :- In view of the acute shortage of suitable technical persons it is for consideration whether requests for higher starting pay than the minimum of the scale may be considered. If so, the entry against this item may be as under :-

" A starting pay of Rs. ~~220~~ 220 p.m. in the prescribed pay-scale will be given ordinarily, but a suitable higher starting pay may be

.... considered .....

~~XXXXX~~ considered having regard to a candidate's qualifications, experience and pay previously drawn."

Item 10 idem : The entry against this item may be modified as under -

"None can be stated."

Items 11(a) & (b) idem :- Entries against these items call for no remarks.

Item 12 idem :- As the question reg. quarters is not yet decided, the entry against this item may be confined to t.a. and dearness allce. only. Accordingly the entry may be modified as under -

"T.a. and dearness allce. as admissible under the rules."

Item 13(a) idem :- The entry against this item may, if approved, be modified as under -

" A "Bachelor's degree in Mechanical Engrg. of the University of Bombay or any equivalent or higher qualifications."

Items 13(b) (c) (d) & (e) idem :- The entries made by the S.E. against these items are in order and may be accepted.

Item No. 13 (f) idem :- The entry made against this item by the S.E. may be deleted in view of the entry proposed against Sub-item (a) above to which the B.P.S.C.'s attention may be drawn. Accordingly entry against this item may be " vide Sub-item (a) above"

Item 14(a) idem :- The S.E. has proposed the age limit at 35 years. In the case of the temporary Dy. Engrs. recently recruited, the age limit was prescribed at 45 years. It is for consideration whether in this case also the age limit may be put up at 45 years on the 1-1-50.

Age limit may be 45 years KJ 8/12

Item 14(b) idem :- Relaxation of the proposed age limit may perhaps be allowed in the case of candidate with exceptionally good qualifications or/ and experience as proposed by the S.E.

Items .....

Items 15 & 16 idem :- There may be a combined entry against these items as usual. Accordingly the following may be substituted for the entries made by the S.E. -

"Subject of the Dominion of India, preference being given to a native of the Province of Bombay as defined in rule 3(d) of the Bombay ~~Circle~~ Civil Services Classification and Recruitment Rules. Non-Muslim refugees from Pakistan are also eligible."

Item No. 17 idem :- The Govt. servants may be allowed to apply for the post as was done in the case of posts of temporary Dy. Engrs. recently advertised. If so, the entry made by the S.E. against this item may stand.

Item No. 18 idem :- The women may be allowed to apply but preference be given to men as was done in the similar cases in the past. If so, the following may be substituted for the entry made by the S.E. against this item.

"Yes but preference will be given to men"

Entry made by the S.E "No" may stand.
KB/12

Item 19 idem :- In view of the G.C., P. & S.B., No. 490/46, dated the 10/7/48, the following may be substituted for the entry made by the S.E. against this item:-

"All other things being equal, candidates belonging to the Backward Classes should be given preference."

Item 20 idem :- It is for consideration whether the S.E., Karnatak Irrn. Circle, may represent this Deptt. at the time of the interview of the candidates as proposed by him or any other officer, say the S.E., B.C., whose head-quarters are at Bombay, may be nominated for the purpose. In the former case the entry made by the S.E. against this item may stand.

B.

It would be better to nominate somebody conversant with machines M. Dhanak E.E. Langpur might be more suitable
KB/12

Item 21 idem :- It is for consideration whether the entry made by the S.E. may be allowed to stand if so, it may be numbered as (1) and the following may .....

may be added as entries (2) & (3) :—

"(2) The selected candidate, if not already in permanent Govt. Service, will be appointed subject to his being certified as physically fit by a Medical Board constituted by Govt.

(3) The selected candidate will be requir- to pass the Hindustani, Regional Language and the Professional Examinations as required by the rules."

8/12/49

If it is possible we might recruit more men than one as they are badly wanted at Malir, Sangaram also. 9/12/49

Very Urgent.
U.O.R. to the P.&S.D. / F.D. (in succession)
dated the 10-12-49.

P and S.D
D.

The replies to items 1-2 & 15 and 16 of the Requisition, proposed by the PWD virtually throw open the recruitment

recruitment to the posts in question to all subjects of the Indian Union. The number of recruits being ~~considerable~~ small, there seems hardly any justification for widening the field of recruitment. P and S.D. may therefore suggest that the recruitment to the posts be confined to the natives of this Province as defined in Rule 3 (d) of the P.C.S.C. & R. Rules. The concluding sentence of the reply to items 15 & 16 proposed by the Pers.D also needs amendment as follows: .... Non-muslim displaced persons who have settled down in this Prov. are also eligible", as otherwise it would mean that non-Muslim displaced persons from Pak. in whatever part of the country they may now be, can apply.

2 Subject to these remarks the replies proposed by the Pers.D seem to be quite in order. The pps. may now be passed on to the F.D.

2. As regards item 5 it may be stated that the mere fact that the appointment is a temporary one and is terminable with one month's notice on either side is no justification for doing away with its probationary period ~~altogether~~ altogether. Since it is stated that in the case of temporary Engrs. recently recruited no probationary period was prescribed, the P.W.D. may be requested to show the proceedings underlying that decision.

P. W. Deptt.

E.B.(I).

These papers relate to the recruitment of a Mechl. Dy. Engr. for the Mechanical Sub-Dn. in the Ghataprabha Left Bank Canal Dn. of the Karnatak Irrigation Circle. In G.L. No. 201/48-~~II~~(I), dated the 17-3-50, the B.P.S.C. has been requested to advertise the post and recommend suitable candidates. Please see letter No. 374(1)-II(4), dated the 21-4-50, from the B.P.S.C. para. 1 of the Commn's. letter may be agreed to. No further action is, therefore, necy. on this para. Shri G.G. Dhanak, Offg. Ex. Engr., Gangapur Storage Dn., has been nominated as a representative of this Deptt. at the interview of the candidates. For the reasons stated in para. 3 of its letter the Commn. requests that, in lieu of Shri Dhanak, another officer of the rank of a S.E. or above may be nominated for the purpose. Please see in this connection portion sidelined 'B' of the office note dated the 8-12-49, and the Dy. Secy.'s orders thereon. It is for consideration who may be niminated as a representative of this Deptt., in lieu of Shri Dhanak.

Submitted with reference to G.L. No. 201/48-E(I), dated the 17-3-50.

2. The question under consideration in these papers is regarding the apptt. of a Mechanical Dy. Engr. for the Mechl. Sub-Dn. in the Ghataprabha Left Bank Canal Dn. of the Karnatak Irrign. Circle. The Commrn. in their letter under disposal have recommended Shri N.A. Sirsi, B.E.(Mechl.)(Mysore for apptt. to the post.

3. The Commn.'s recommendation may be accepted. Shri Sirsi is a pt. overseer in this Deptt. and is at present offg. as Dy. Engr. in the post in question with effect from the 11-7-49. In G.L. No. 678/48-E(I), dated the 12-6-50, his case was refd. to the Commn. for their approval to his apptt. as Dy. Engr. Please see Commn.'s reply in their letter No. 374(ii)-II/(2), dated the 15-7-50. In view of this reply Shri Sirsi's apptt. as temporary Dy. Engr. may be made with effect from the 11-7-49. There seems to be no objection to do so.

4. The necessary drafts are put up for approval. The P. & S.D. may however see the papers U.O. before the drafts are issued.

Superintending Engineer,
Special Investigation Circle.

RGY/5.1
Compd.by:

Office of the Superintending Engineer,
Special Investigation Circle,
Dharwar, 8½ January 1949.

The Secretary to Government,
Public Works Department, Bombay.

Subject:- Mechanical and Electrical Executive Engineer for the Karnatak Irrigation Circle, Dharwar.

It has, by now, been accepted that the work of the Ghataprabha Left Bank Canal will have to be done mostly by mechanization - compressors, pneumatic drills, showels, -- tractors, bull-dozers, scrapers, loaders (force-feed or showe and the like. In addition to the machinery for the actual - canal, we will have pumps, generators, motor trucks, overhead wiring, workshop etc. to be looked after.

2. I have, after very carefully consideration, come to the conclusion that it is essential to have a special "Mechanical and Electrical Executive Engineer" for this purpose, in this Circle.

I am aware that on a first thought it is likely to be considered that all that was needed was a "Mechanical - Deputy Engineer". I do not think, this would be sufficient; for, a man with the experience necessary in running repairing and general supervision of mechanical equipment of this type, cannot be available, in these days, in the pay offered for a Deputy Engineer.

In case, Government are prepared to offer a salary of Rs.500/- to 600/- p.m. and want the designation to be only a "Mechanical Engineer" there should be no objection; but - there should be no misunderstanding as to the pay expected. Any attempt to get a fresh graduate or a practical and experienced non-graduate, who has not got the administrative capacit needed, will end in inefficiency.

3. To allow the proposal to be properly understood, it is desirable to offer some comment on the general lines on which, I find, sanctions of various basic units are being - granted in P.W.D. An idea appears to have been firmly established that certain units in P.W.D. must have a certain fixed pattern, e.g.,

An Executive Engineer.
- Office with an Accountant, Head Clerk and other clerks, overseers, Draftsman etc.
- Sub-Dn.) Three or more Sub-Dns. as
- Sub-Dn.) separate units.
- Sub-Dn.)

A Sub-Division
- One Senior clerk with 2 or 3 more clerks.
- One or two tracers.
- 3 to 5 overseers.
- 3 to 5 sub-overseers.

In addition to the above, certain number of inferior servants like peons, chowkidars etc. are also provided for each of these units separately.

P.T.O.

No.G-108

Office of the Superintending Engineer,
Special Investigation Circle,
Dharwar, 8th January 1949.

To

The Secretary to Government,
Public Works Department, Bombay.

Subject:- Mechanical and Electrical Executive Engineer for the Karnatak Irrigation Circle, Dharwar.

It has, by now, been accepted that the work of the Ghataprabha Left Bank Canal will have to be done mostly by mechanization - compressors, pneumatic drills, showels, -- tractors, bull-dozers, scrapers, loaders (force-feed or showel and the like. In addition to the machinery for the actual - canal, we will have pumps, generators, motor trucks, overhead wiring, workshop etc. to be looked after.

2. I have, after very carefully consideration, come to the conclusion that it is essential to have a special "Mechanical and Electrical Executive Engineer" for this purpose, in this Circle.

I am aware that on a first thought it is likely to be considered that all that was needed was a "Mechanical - Deputy Engineer". I do not think, this would be sufficient; for, a man with the experience necessary in running repairing and general supervision of mechanical equipment of this type, cannot be available, in these days, in the pay offered for a Deputy Engineer.

In case, Government are prepared to offer a salary of Rs.500/- to 600/- p.m. and want the designation to be only a "Mechanical Engineer" there should be no objection; but - there should be no misunderstanding as to the pay expected. Any attempt to get a fresh graduate or a practical and experienced non-graduate, who has not got the administrative capacit needed, will end in inefficiency.

3. To allow the proposal to be properly understood, it is desirable to offer some comment on the general lines on which, I find, sanctions of various basic units are being - granted in P.W.D. An idea appears to have been firmly established that certain units in P.W.D. must have a certain fixed pattern, e.g.,

An Executive Engineer.
- Office with an Accountant, Head Clerk and other clerks, overseers, Draftsman etc.
- Sub-Dn.) Three or more Sub-Dns. as
- Sub-Dn.) separate units.
- Sub-Dn.)

A Sub-Division
- One Senior clerk with 2 or 3 more clerks.
- One or two tracers.
- 3 to 5 overseers.
- 3 to 5 sub-overseers.

In addition to the above, certain number of inferior servants like peons, chowkidars etc. are also provided for each of these units separately.

P.T.O.

The above standard pattern is no doubt suitable to ordinary management (Current repairs and special repairs works) units and also to ordinary construction units in P.W.D.; but the same pattern being used as a mould for every other type of work e.g. the Irrigation Projects Division(South) has - resulted in inefficiency, dilatory procedure, delays and the like. I will record a few more details of the latter, both because, I strongly recommend that pattern to be changed in the case of "survey and Project Divisions" and also because it will allow me to explain the necessity of a change in the pattern in the case of the Mechanical Executive Engineer proposed by me.

4. When I opened this Circle last year, the Executive Engineer, Irrigation Projects Division(South) had his office at Belgaum with the normal pattern of an Executive Engineer's unit and had three independent Sub-Divisional Offices, all with head-quarters at Belgaum! I would have appreciated the three independent Sub-Divisions, had the head-quarters of each been, say 100 miles away from the Executive Engineer's office, so that, an independent officer directly in charge was needed. But that was not so. All the four officers (the Executive Engineer and three Sub-Divisional Officers) were within two minutes walk from each other, but having been sanctioned as separate units with office and independent office staff for each, they had to carry on correspondence and this resulted in waste of time and inefficiency in out-turn & standard of work.

The correct pattern needed (then and even now) is that the three Sub-Divisional Officers should still have been Deputy Engineers but should have been attached to the office of the Executive Engineer and given one personal clerk each, 2 peons and perhaps a tracer and a personal overseer. The remaining army of overseers and surveyors should be grouped and kept under the Executive Engineer, who could distribute them as needed from time to time.

Probably, certain conventions do not allow three Deputy Engineers to be attached to the office of an Executive Engineer, and hence the normal pattern was enforced over the Irrigation Project Division, with very unsatisfactory results.

5. I have described the above in some detail, for, not only does the above need the attention of Government, but it has a bearing on the present problem also. I have proposed the appointment of a Mechanical Executive Engineer. That need not be misunderstood to mean that he must have the full office staff usually allotted to an Executive Engineer and also three or four Sub-Divisions. His duties will be mainly the choice, regular inspections, maintenance and repairs of the machinery and he will need only a small clerical staff. He will not need to have several Sub-Divisions, but will require one Deputy Engineer (Mechanical and Electrical) with a clerk to help him.

6. The duties of this Mechanical Executive Unit will be as under. He will contact both -

(a) the Executive Engineer concerned
(b) the Superintending Engineer,

but will be under the control of the Superintending Engineer.

(1) Scrutinizing offers from the various firms for different machines and choosing the final type.

(2) Placing order for the same including preliminary correspondence and visits to Bombay and other places where similar machines are working.

(3) Looking to regular servicing of machines, repairs to their parts, supply of lubricating and other

oils, sending parts to workshops.

(4) Running of workshops, castings, moulding in foundaries etc.

(5) Ordering parts for replacements, steel rods, bits etc.

(6) Keeping log forms and data for different machines

7. Experience has shown that the Executive Engineer, Ghataprabha Left Bank Canal Division, cannot find time to do all this, if he is to attend efficiently to normal management of works, viz. lining out, keeping watch on progress, writing measurements of works every month (or earlier), checking the same, preparing the bills and making payments in time.

It might, perhaps, be argued that when the Executive Engineer, Gangapur Storage Division can look to the civil - side of the work and finds it sufficient to have a Deputy Mechanical Sub-Divisional Officer, why should the Executive Engineer, Ghataprabha Left Bank Canal Division, not be able to do ~~the~~ likewise.

The reply is to be found in the fact:-

That the jurisdiction of the Executive Engineer, Ghataprabha Left Bank Canal Division extends over 44 miles of main canal and about twice that length of branch canals in addition to several lakh acres over which outlets and field channels will be spread.

As against this, the work at Gangapur will be concentrated.

Again rock-cutting pneumatic machinery entails many more repairs and replacements than earth (soft) moving machinery. The former is required in Ghataprabha Left Bank Canal in addition to as against the latter at Gangapur.

It might also be argued that we need not do any work departmentally on the Ghataprabha Left Bank Canal, at all. I have already explained to the Chief Engineer, Irrigation, - personally and also by a D.O. that work over certain lengths e.g. that near the existing weir and also in lengths where - work has been partially done in the past, must be done departmentally only.

Again works of pumps, electrical generation, wiring of houses for our staff quarters and labour camps, will also have to be done departmentally.

To add to the above, I find that the work of taking bores for foundations has been neglected due to the Executive Engineer, Irrigation Projects Dn.(South) not being able to keep a good watch over the progress on Calyx Core Drill -- situated at out of the way places. That work is being done (and has been done in the past) at a snail's speed. We are thinking of purchasing a costly "Failings" Core machine in - addition to several Calyx Drilling Machines (or alternatively a larger number of diamond core ~~of~~ Calyx Drills), as we have to examine some half a dozen sites for dams before deciding upon the final site.

We have several other sites, besides Ghataprabha Valley, viz. the Malaprabha, Yamgalli, Varda and also others, to be examined.

To manage and look after all this machinery, a - separate Mechanical Executive Engineer is essential.

8. There is a proposal that the remaining work of the Ghataprabha Left Bank Canal will be done by contract. Even so, I consider that a Mechanical Executive Engineer is essential. I lay particular stress on this as Ghataprabha Canal works is to be finished in a period of 3 years. We must not be dependent on "B" form contractors and to expected that they will bring their own staff and machinery. That may be extremely costly and we may find it most convenient to have our machinery and crew lent to contractors, if our works are to be done in reasonable rates.

Besides, we must keep a long view. We have in view, a Dam at Ajra and Hadalga (or Daddi) and this development must not be left out of sight. A Mechanical Engineer employed now, will be able to see to the future needs of this. To await till the work was actually sanctioned and then to start afresh piecemeal for every work, will be a mistake.

9. I may quote the case of Tungabhadra Dam and the organization there as an actual example. They have a Special Mechanical Superintending Engineer there, for looking after Rampadasagar and Tungabhadra combined, and a separate Mechanical Executive Engineer for the dam and a Mechanical Executive Engineer for canals etc. at Tungabhadra. My visit there, has convinced me that the same is essential here at least so far as appointing one Mechanical Executive Engineer for this Circle is concerned.

10. I request early approval to this proposal, particularly in view of the Government wishes to construct the Ghataprabha Left Bank Canal in 3 years.

The accompanying statement shows the expenditure involved.

D.A.-1 statement.

Superintending Engineer,
Special Investigation Circle.

No. G-108 Office of the Superintending Engineer,
Karnatak Irrigation Circle,
Via Dharwar, 14th Mar.1949.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject: Mechanical Sub-Division under the Ghataprabha Left Bank Canal Division, Dhupdal.

Reference: Government Letter, P.W.D., No.201/48-E(I) dated the 21st Febch 1949.

2. Proposals for opening of a Mechanical Sub-Division under the Ghataprabha Left Bank Canal Division are submitted herewith as desired by Government:-

i) As the services of the Mechanical Engineer are mostly required in connection with machinery required for construction of the Ghataprabha Left Bank Canal construction and also for core drills for foundation for dams, the Headquarters of the Sub-Division should be at the place where the Divisional office is situated, viz. at Dhupdal.

ii) The staff required for the Sub-Division should comprise of the following :-

Establishment	Pay-scales
1) Sub-Divisional Officer, One Deputy Engineer preferably a graduate having past experience in Mechanical Engineering.	220-15-400-E.B.-20-500-E.B.-25-650
2) Four Mechanical overseers - Graduate or Diploma holders in Mechanical Engineering	80-5-100-8-140-E.B.10-220-E.B.10-270
3) One Civil Overseer	-do-
4) One Mechanical Draftsman having sufficient knowledge of machinery.	100-4-120-5-170 or 110-10-180 according to qualifications.
5) One tracer and one computor	46-3-85-4-105
6) One special Store-keeper	60-4-120-E.B.-5-150
7) One senior clerk	92-8-140
8) Two clerks - junior	46-3-85-E.B.4-105
9) Six peons (including chowkidar & watchman)	30-1/2-35

3. The storekeeper of the Sub-Division will have to deal with machinery etc. which is expected to be of a very large magnitude; The work and responsibilities of the post will undoubtedly be more than those of a storekeeper of an ordinary Divisional Office. Under these circumstances the pay proposed is that of the storekeeper of a Divisional office instead of that of an ordinary Sub-Divisional office store-clerk. This is very essential

in....

12

in view of the special nature of work in this particular Sub-Division and may please be allowed to stand

No.G-108

Office of the Superintending Engineer,
Karnatak Irrigation Circle,
Dharwar, 11th April 1949.

To

The Secretary to Government,
Public Works Department, Bombay.

Subject:- Mechanical Sub-Division under the Ghataprabha Left Bank Canal Division.

Reference : Government letter No.201/48/E(I), date the 21st February 1949.

2. In accordance with the above Government letter, detailed proposals for opening a Mechanical Sub-Division with head-quarters at P.O.Ghataprabha (Dhupdal) have already been submitted in this office No.G-108 dated the 14th March 1949 and sanction thereto is awaited.

3. I would, however, point out that a lot of machinery has since been released and is due to arrive shortly, vide Government letter No.6572/36(2)-Con.II, dated the 1st April 1949. In addition to this, two compressors with rock drilling equipment which were ordered out, are also ready for delivery at Bombay. As already advised in para 2 of Government endorsement No.6572/36(2)-Con, dated the 26th March 1949, it is essential that a responsible Mechanical Officer should be deputed to take delivery after thoroughly examining all the parts, spares and accessories and make arrangements for transport of this machinery to the work site.

4. There is at present no mechanical Engineer available in this Circle to look to this work. I have already issued an advertisement calling for applications for the subordinate staff in the proposed Mechanical Sub-Division but the appointment of a Deputy Engineer (Mechanical) has to be made by Government with the approval of the Public Service Commission.

5. As the appointment of a Deputy Engineer (Mechanical) is an urgent necessity, I would request Government to take very early action in the matter, so that the services of the Deputy Engineer (Mechanical) would be available for taking delivery of the machinery expected.

Superintending Engineer,
Karnatak Irrigation Circle.

Karnatak Irrigation Circle,
Dharwar, 1st June 1949.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject: Mechanical Sub-Division under the Ghataprabha Left Bank Canal Division.

Reference: This office letters Nos. G-108 dated 14-3-1949 and G-108 dated 11-4-1949. P. 17

2. As already explained in this office letters noted above, the need of a Mechanical Engineer is keenly felt now for taking delivery of the machinery such as Tractors etc. which have already been received. It is also essential to have the mechanical staff tom look after the maintenance of the machinery. Government may, therefore, kindly be moved to accord their sanction to the opening of a Mechanical Sub-Division and appoint a Deputy Engineer (Mechanical) to hold the charge of the Sub-Division, at a very early date.

BOMBAY PUBLIC SERVICE COMMISSION

Deputy Engineer (Mechanical) in the Bombay Service of Engineers, Class II.

No.374(i)-II/(4).- Applications are invited from citizens of India for the post of Deputy Engineer (Mechanical) in the Bombay Service of Engineers, Class II. The post is temporary for a period of one year in the first instance but is likely to be continued further. Government servants and employees of local bodies are eligible if they are permitted to apply by the Heads of their Departments. Other things being equal, candidates belonging to the Backward Classes will be given preference. The selected candidates, if not already in permanent Government service, will be appointed subject to his being certified as physically fit by a Medical Board constituted by Government. [illegible]. He will be required to join duty immediately after appointment. He will be required to pass the Hindustani or Hindi, regional language and professional examinations as required by the rules. The selected candidate will be required to serve at Ghataprabha and places between Ghataprabha, Raibag and Jamkhandi on Ghataprabha Left Bank Canal alignment but will be liable to serve at any other places in the State of Bombay if the exigencies of service so warrant. He will be eligible to contribute to the Provident Fund. The appointment will be terminable on one month's notice on either side. Pay:- Rs.220-15-400-E.B.-20-500-E.B.-25-600 plus travelling allowance and dearness allowance as admissible under the rules. A suitable higher starting pay may be allowed to a well qualified candidate. Qualifications:- (a) A Bachelor's Degree in Mechanical Engineering of the University of Bombay or an equivalent or higher qualification; (b) approved apprenticeship for a year. Preference will be given to candidates with experience for at least five years, in workshop practice, automobiles, heavy pumping from foundation trenches, earth moving and rock drilling machinery. Working knowledge of electricity and ability in organisation of large construction works will be given special consideration. Age:- Not more than 45 years on 1st August 1950. The age limit may be relaxed in the case of candidates with exceptionally good qualifica-

5-7(b)

tions or/and experience. Duties:- In general the duties of a Sub-Divisional Officer in the Public Works Department. In particular the officer will be in charge of the earth moving machinery, rock drilling and blasting equipment, automobile section, workshop, electrical installations, pumping machinery and other miscellaneous mechanical equipment, including maintenance and operation of large-scale construction work.

Applicants should supply full details in the printed prescribed form of application, copies of which can be had from the undersigned on requisition, accompanied by a large addressed envelope bearing postage stamps of the value of four annas and on payment of one rupee for each form either in cash in the office of the Commission or by a crossed Indian Postal Order in favour of the "Secretary, Bombay Public Service Commission, Bombay No.1". Persons registered with the Regional Employment Exchanges can obtain the form on application in person at the Exchange Office. Payment by postage stamps will not be accepted. Applications should be sent by registered post so as to reach the Secretary, Bombay Public Service Commission, P.W.D.Secretariat, Bombay No.1, before the 3rd June 1950. Canvassing in any form will disqualify the candidate concerned.

B. J. ISRAEL,
Secretary,
Bombay Public Service Commission.

Bombay, 15th April 1950.
'prib'

51

No.871(1)-II/(1),
Bombay Public Service Commission,
P. W. D. Secretariat,
Bombay No.1, 21st April 1950.

From

The Secretary,
Bombay Public Service Commission.

To

The Secretary to the Government of Bombay,
Public Works Department, Bombay.

Sir,

With reference to your letter No.PCL/48-B(1), dated the 17th March, 1950, I am directed to state that in the 10(c), of the requisition for the post of Deputy Engineer (Mechanical), forwarded with the letter, experience of not less than five years has been prescribed as an essential qualification. In the opinion of the Commission, a minimum period of five years' experience will practically shut off good fresh material and the recruitment will, in effect, be confined to departmental candidates. In advertising the post, the Commission have, therefore, provided that preference will be given to candidates with experience for at least five years.

2. Shri G.S.Dikshit, B.E., who has been nominated by Government to assist the Commission at the interview of candidates for the post, is an officiating Executive Engineer whose substantive position is that of Assistant Engineer only. The Commission expect that the officer nominated to assist them will be of sufficiently high standing which an officiating Executive Engineer has not.

The

52

The Commission request that another officer of the Bank of Superintending Engineer or above may be nominated to assist them.

Yours faithfully,

A. J. Lisle

OFFICE OF THE ACCOUNTANT GENERAL.

NO. GV.BSE.9297 BOMBAY. 2/51

To,

The Secretary to Govt.
P.W.D.
Bombay.

Sub: Appointment of Bombay Sefvice of Engineer, Cl. II (Shri. N.A.Sirsi).

Sir,

I am to invite a reference to G.L.P.W.D.NO. 201/48-E(I) of 7.11.50, to the address of the S.E. Karnatak Irriagation Circle, regarding the certificate of physical fitness in respect of Shri. N.A.Sirsi Dy. Engineer and to state that if appears from the Medical Certificate forwarded to this office by the Ex. Engineer Ghatapradha Left Bank Canal Dn. that Shri. Sirsi's age at time of appointment was 34 years.

This office may please be informed as to whether the condition of age limit was relaxed by Govt. in his case.

Yours faithfully,

P. Rowan

Asstt. Accounts Officer.
